SUMMARY

Final-year Computer Engineering student with six months of backend development experience building REST APIs in Python and Django. Comfortable with relational and document databases, containerised development using Docker, and deployment on AWS. Seeking a backend developer role.

SKILLS

Languages	Python, JavaScript, Java, SQL
Frameworks	Django, Django REST Framework, Flask, Node.js, Express
Databases	PostgreSQL, MySQL, MongoDB, Redis
Cloud & Tools	Docker, Git, GitHub Actions, AWS (EC2, S3), Linux, Postman
Concepts	REST API, CI/CD, unit testing, data structures and algorithms

EXPERIENCE

Backend Development Intern

Jan 2025 - Jun 2025

Zenlabs Technologies, Ahmedabad

- Built and documented 12 REST API endpoints in Django REST Framework for the internal analytics dashboard, serving around 400 daily active users.
- Optimised slow PostgreSQL queries by adding composite indexes, reducing median dashboard load time from 2.1s to 0.6s.
- Containerised the local development environment with Docker Compose, cutting new-developer setup from half a day to under 20 minutes.
- Wrote pytest unit tests covering the reporting module and wired them into the GitHub Actions CI pipeline.

PROJECTS

Inventory Management System

Django, PostgreSQL, Docker, AWS

Multi-user stock management tool for small retailers with role-based access control and CSV export. Deployed on AWS EC2.

College Event Portal

Node.js, Express, MongoDB

Event listing and registration platform with JWT authentication and an admin dashboard. Used by roughly 300 students.

Weather Aggregator API

Python, Flask, Redis

REST API aggregating three public weather sources, with Redis caching reducing upstream calls by around 70 percent.

EDUCATION

B.E. Computer Engineering

2022 - 2026

Gujarat Technological University, Ahmedabad

Relevant coursework: Data Structures, Database Management Systems, Operating Systems, Computer Networks

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner - Amazon Web Services, 2025
- Meta Back-End Developer Professional Certificate - Coursera, 2024
- Runner-up, Inter-College Hackathon (team of 4) - built a Django-based civic issue reporting platform in 36 hours
- Contributed three merged pull requests to an open-source Django utility library
